DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Johnson on 11/16/2003.

The application has been amended as follows: **Cancel claims 21-22.**

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1-18 are allowed over the prior art.

Independent claim 1 discloses a turbine having a first rotating portion that is configured to rotate about an axis, the first rotating portion having a plurality of first fluid outlets and a second rotating portion configured to rotate about an axis the second rotating portion comprising a plurality of second fluid outlets proximate to a plurality of first fluid outlets on the first rotating portion, the second fluid outlets positioned radially outwardly from the first fluid outlets. However prior art fails to disclose a turbine having a base comprising a first set of bearings for supporting the first rotating portion and a second set of bearings for supporting a second rotating portion, in which the first rotating portion and second rotating portion rotate freely with respect to the base.

Wherein in a fluid is directed out of the first fluid outlets and a first rotating portion rotates in a first sense and a fluid is directed out of the second fluid outlets in order to cause the second rotating portion to rotate in a sense opposite of the first sense.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
